

BLUE RIDGE · NEW OWNER ENROLLMENT OFFER

The \$5,000 Basecamp Launch Package

A better way to launch your vacation rental.

Qualifying vacation-rental owners who choose Basecamp Getaways select one Launch Package with up to **\$5,000 in promotional value** — designed to improve the property, reduce the burden of ownership, or give the owner greater confidence in the property's performance.

01

Lawn + Cabin Keeper

02

Performance Guarantee

03

Property Makeover

04

Property Upgrade

WHY WE BUILT THIS

Your vacation rental isn't like everyone else's. Neither should your management package be.

Most management companies offer every owner the same thing. We don't think that works. One owner is tired of driving out to cut the grass. Another wants proof the revenue projection is real. A third knows the house needs a hot tub but doesn't want to write the whole check alone.

So instead of one generic incentive, qualifying owners who bring their property to Basecamp Getaways choose **one** Launch Package worth up to **\$5,000** — the one that actually solves their problem.

WHO IT'S FOR

The Launch Package is built for higher-performing vacation rentals that are a strong fit for the Basecamp management program — properties Basecamp projects can generate at least **\$85,000 in annual Gross Booking Revenue** with the required improvements completed and the required rental availability in place.

HOW IT WORKS

1

INCOME PROJECTION

We analyze your property, its market and its comparable set, and prepare a complimentary Basecamp Vacation Rental Income Projection.

2

QUALIFICATION REVIEW

We confirm the property qualifies, identify any required improvements, and agree on your Peak Season dates and owner-use allowance.

3

CHOOSE YOUR PACKAGE

You select one of the four Launch Packages. It's written into your management agreement and it begins when the property goes live.

ONE PACKAGE PER PROPERTY

Each qualifying property selects a single Launch Package. Packages cannot be combined, transferred to another property, or exchanged for cash — except for reimbursements specifically earned under the Property Upgrade Package.

FOUR WAYS TO LAUNCH

Pick the one that solves your problem.

PACKAGE	WHAT YOU RECEIVE	MAX VALUE	BEST FIT FOR
01 Lawn Care + Cabin Keeper	Routine lawn and grounds maintenance, plus Basecamp covering the cost of a Cabin Keeper inspection plan for the first qualifying 12-month period.	\$5,000 COMBINED	Out-of-town cabin owners who want eyes on the property between guests — freeze checks, propane, storms — without driving up to Blue Ridge to do it themselves.
02 Performance Guarantee	Basecamp puts up to \$5,000 of its own management fees behind the agreed Annual Gross Booking Revenue Target.	\$5,000 FEE CREDITS	Owners switching from another manager or self-management who want the projection backed by something real before they commit.
03 Property Makeover	Professional vacation-rental photography plus a full Basecamp redesign, staging and amenity-revenue consultation.	\$5,000 SERVICES	Properties with good bones that don't photograph or present like the top listings in the market yet.
04 Property Upgrade	Reimbursement of up to \$5,000 toward an approved revenue-producing improvement, vesting at \$138.89 per completed month.	\$5,000 REIMBURSED	Owners who already know what the house needs — hot tub, sauna, game room, fire pit — and want help paying for it over time.

WHAT EVERY PACKAGE SHARES

- Available only to new Basecamp management properties accepted into the program
- Requires the 25% Basecamp management program and applicable \$120 technology fee
- Requires Basecamp control of pricing, minimum stays and revenue strategy
- Requires Basecamp as exclusive short-term-rental manager
- Requires the property to meet Peak Season availability commitments

COMMON QUESTIONS

Can I combine two packages?

Not unless Basecamp agrees in writing. One package per property.

Can I switch packages later?

The selected package is documented in your management agreement. Changes require Basecamp's written approval.

Is any of this cash?

No — except earned reimbursements under Package 04, which are paid against documented receipts.

1

LAWN CARE + CABIN KEEPER INSPECTIONS

Someone eyes-on your cabin — between guests and between visits.

One package, two services, one \$5,000 pool. Every qualifying property receives routine lawn and grounds maintenance. On top of that, **Basecamp covers the cost of a Cabin Keeper inspection plan** for your first qualifying 12-month period — a substantially deeper check than any manager performs in the normal course.

\$5,000

COMBINED PROMOTIONAL VALUE

12 mo.CABIN KEEPER COVERAGE
PERIOD**\$90–\$460**TYPICAL CABIN KEEPER COST,
PER VISIT TO PER MONTH

Routine Lawn & Grounds Maintenance

Basecamp arranges routine lawn and grounds maintenance on the property's normal seasonal schedule.

INCLUDED

- Grass cutting
- Weed eating / string trimming
- Blowing driveways, walkways, decks and other serviced areas

NOT INCLUDED

- Major landscaping, plantings, mulch or grading
- Tree removal and storm cleanup
- Irrigation repair
- Other extraordinary landscaping services

HOW THE \$5,000 IS ALLOCATED

Lawn and grounds maintenance and Cabin Keeper coverage draw from a single \$5,000 pool across the first qualifying 12-month period. There is no separate sub-limit on either service — but the combined total cannot exceed \$5,000. If the Cabin Keeper plan selected for your cabin, together with lawn and grounds service, would exceed that ceiling, the difference is the owner's cost and is billed in the ordinary course.

THE CABIN KEEPER PARTNERSHIP

Two different sets of eyes on your cabin.

Basecamp already inspects your cabin as part of management. Cabin Keeper is something different, and deeper. Both matter, and they catch different problems.

WHAT BASECAMP ALREADY DOES

Our team is in your cabin at **every turnover** — before and after each clean — and walks it periodically through the season.

- Guest-readiness and presentation
- Damage and wear from the prior stay
- Cleanliness and supply levels
- Amenities working as advertised

Included in management at no additional cost. This does not change, and it is not part of the promotional benefit.

WHAT CABIN KEEPER ADDS

An independent Blue Ridge-area partner performing a **systems-level inspection** between our touchpoints — the things that quietly go wrong in an empty mountain cabin.

- Propane levels and leak detection
- Power outages, resets and restored service
- HVAC, furnace and water heater
- Plumbing and freeze risk in a cold snap
- Window and door seals
- Storm damage assessment after heavy weather
- Written report after each visit

It's the check you'd want done in February, when nobody has been up in three weeks.

What it normally costs, and what Basecamp covers

Cabin Keeper sets its own pricing. Plans range from roughly **\$90 per visit** on a pay-as-you-go basis up to about **\$460 per month** for their most comprehensive service, depending on the level of coverage and the property. Under this package, Basecamp covers that cost for the first qualifying 12-month period, within the \$5,000 combined package value.

SCOPE IS AGREED BEFORE YOU COMMIT

The specific Cabin Keeper plan for your cabin, and exactly which of their services are included, are agreed at Launch Package selection and documented in your signed management agreement. Cabin Keeper add-on work billed separately — contractor coordination, materials, yard work beyond the lawn service, concierge requests — is not included.

Cabin Keeper is an independent provider. Cabin Keeper is not affiliated with, controlled by, or an agent of Basecamp Getaways. It sets its own pricing, scope and availability, and Basecamp does not guarantee its performance. Basecamp's obligation under this package is limited to covering the agreed cost, within the \$5,000 combined maximum.

2

\$5,000 PERFORMANCE GUARANTEE

We don't just project your revenue. We put our management fee behind it.

Before launch, Basecamp prepares a rental-income analysis and establishes an agreed **Annual Gross Booking Revenue Target**. If we don't achieve it during the defined Performance Period, we credit back up to \$5,000 of our own management fees.

\$85,000MINIMUM PROJECTED REVENUE
TO QUALIFY**\$5,000**MAXIMUM AGGREGATE FEE
CREDIT**12 mo.**PERFORMANCE PERIOD —
DEFINED OVERLEAF**EXAMPLE**

Agreed Annual Gross Booking Revenue Target	\$95,000
Actual Qualifying Gross Booking Revenue	\$87,000
Shortfall	\$8,000
Management-fee credit (shortfall, capped at \$5,000)	\$5,000

Credits equal the revenue shortfall, capped at \$5,000 in the aggregate, and are applied against future Basecamp management fees. The guarantee can never result in a cash payment to the owner.

Performance Guarantee Conditions

The guarantee remains valid only if the owner does all of the following throughout the performance period:

- ✓ Maintains required property availability
- ✓ Does not block designated Peak Season dates
- ✓ Remains within the agreed annual owner-use allowance
- ✓ Completes all required Basecamp property improvements by the agreed deadlines
- ✓ Maintains all required amenities in working condition
- ✓ Maintains the property in guest-ready condition
- ✓ Allows Basecamp to control pricing and revenue-management strategy
- ✓ Does not independently alter pricing or reservation availability
- ✓ Does not cancel or interfere with qualifying guest reservations
- ✓ Maintains Basecamp as exclusive short-term-rental manager
- ✓ Maintains all required licenses, permits and insurance
- ✓ Does not materially alter the property from the condition on which the projection was based

Availability is the whole deal. Blocking peak dates or overriding Basecamp pricing may void the guarantee.

DEFINING THE PERFORMANCE PERIOD

A fair test needs a full season.

A lake house that goes live in October has never had the chance to sell a week in July. So the Performance Guarantee is not measured over *any* twelve months — it is measured over twelve months that contain **every designated Peak Season date**, each with a real booking window in front of it.

THREE DEFINED TERMS

- 1

LAUNCH READINESS DATE
The **later** of (a) the date the property is live and bookable across all Basecamp-managed channels, and (b) the date all Required Property Improvements are completed and verified by Basecamp.
- 2

RAMP PERIOD
Begins on the Launch Readiness Date; **minimum 90 days**. Ramp stays settle normally under the agreement, net of fees and reimbursable expenses, and do not count toward the Revenue Target.
- 3

PERFORMANCE PERIOD
The **12 consecutive full calendar months** beginning on the first day of the calendar month following the end of the Ramp Period — subject to the Peak Season Coverage Test below.

THE PEAK SEASON COVERAGE TEST

The period must include **every designated Peak Season date** on the applicable Exhibit B, and each must have been open, bookable and under Basecamp pricing control for at least **90 days beforehand**. A period that fails this test rolls forward to the earliest month that satisfies it.

WORKED EXAMPLE

MILESTONE	DATE	EFFECT
Launch Readiness Date	June 15, 2026	Live on all channels; required improvements verified complete.
Ramp Period	Jun 15 – Sep 30, 2026	Settled normally under the agreement. Nothing counts toward the target.
Performance Period	Oct 1, 2026 – Sep 30, 2027	The measured 12 months.
Peak dates covered	All of Exhibit B	Thanksgiving · Christmas / New Year's · Memorial Day · peak summer and July 4th · Labor Day.

HOW REVENUE IS COUNTED	IF PEAK AVAILABILITY IS COMPROMISED
Credited on stays completed within the period , regardless of when they were booked.	Basecamp may void the guarantee or extend the period to restore a fair measurement.

3

THE BASECAMP PROPERTY MAKEOVER

Make your vacation rental stand out.

This package focuses on how the property *looks, feels and photographs* — not the listing-management services already included with Basecamp management. We evaluate the home through the lens of both vacation-rental design and revenue performance.

Professional Property Photography

A photography session designed specifically for vacation-rental marketing. Depending on the property, may include:

- Interior photography
- Exterior photography
- Amenity photography
- Lifestyle / staged photography
- Twilight photography
- Drone photography

Amenity Revenue Consultation

We benchmark your amenities against directly competing rentals and recommend the additions with the greatest potential to improve:

- Average nightly rate
- Occupancy
- Guest experience
- Marketability and photography
- Booking conversion
- Overall rental revenue

Basecamp Professional Redesign Consultation

A comprehensive property redesign and guest-experience consultation from the Basecamp team. This is more than a basic walkthrough — it is a written plan for making the property more visually appealing, memorable and competitive.

- Room-by-room redesign recommendations
- Furniture recommendations
- Furniture layout
- Paint / color recommendations
- Décor recommendations
- Lighting recommendations
- Bedding and textile recommendations
- Outdoor-space recommendations
- Guest-experience design
- Photography-focused staging

Recommendations may include hot tubs, fire pits, game rooms, kayaks, outdoor entertainment, grilling areas, saunas, cold plunges — whatever the market rewards.

What this package does not include. The owner remains responsible for purchasing furniture, décor, amenities and physical improvements unless those items are separately included in writing. The Property Makeover delivers professional photography and professional recommendations — not the furnishings themselves.

4

THE \$5,000 PROPERTY UPGRADE

Improve your property. Earn up to \$5,000 back.

Rather than Basecamp purchasing an amenity upfront, the Property Upgrade Package works as an **earned reimbursement program**. The owner purchases and installs a Basecamp-approved, revenue-producing improvement. Basecamp then reimburses the owner over time as the benefit vests through continued participation in the management program.

1

APPROVE

Basecamp approves the improvement in writing *before* purchase.

2

PURCHASE

The owner buys and installs the improvement and submits paid invoices or receipts.

3

VEST

The benefit vests at \$138.89 for each completed month of qualifying management.

4

REIMBURSE

Basecamp reimburses the vested amount against documented, eligible expense.

Eligible Improvements

Improvements must be approved by Basecamp before purchase. Examples include:

- Hot tub
- Sauna
- Cold plunge
- Fire pit
- Game-room equipment
- Arcade games
- Pool table
- Outdoor entertainment area
- Kayaks
- Paddleboards
- Outdoor furniture
- Grill station
- EV charger
- Premium bedding / furniture
- Outdoor lighting

Other Basecamp-approved revenue-producing improvements may also qualify.

TWO HARD LIMITS

Reimbursement can never exceed the **lesser** of:

1. the owner's documented qualifying expenditure, or
2. the amount vested under the program.

Basecamp reimburses only for eligible, documented expenses actually incurred. Paid invoices or receipts for the approved improvement are required.

VESTING SCHEDULE

How the \$5,000 upgrade vests.

The maximum \$5,000 promotional reimbursement vests over the required management term. The recommended structure is a **36-month management term**.

MILESTONE	MONTHLY VESTING	CUMULATIVE VESTED	REMAINING UNVESTED
After 12 completed months	\$138.89	\$1,666.68	\$3,333.32
After 24 completed months	\$138.89	\$3,333.36	\$1,666.64
After 36 completed months	\$138.89	\$5,000.00	\$0.00

Monthly vesting of \$138.89 is rounded; the final month is adjusted so that total vested promotional value never exceeds \$5,000.

EXAMPLE — HOT TUB

Approved hot tub + installation	\$7,500
After 12 qualifying months	\$1,666.68
After 24 qualifying months	\$3,333.36
After 36 qualifying months	\$5,000.00
Remaining owner responsibility	\$2,500

The owner submits the paid invoice and the property remains under Basecamp management throughout.

IF THE OWNER LEAVES EARLY, IN GOOD STANDING

The owner simply stops earning future reimbursement. There is nothing to pay back.

Approved amenity purchased	\$8,000
Months completed of 36	18
Vested and already reimbursed	\$2,500
Additional amount owed by Basecamp	\$0
Unvested value forfeited	\$2,500

Leave on good terms and there is nothing to pay back. Future unvested benefits simply stop when the relationship ends.

Whether the owner ends the agreement, Basecamp ends it without Cause, or the property is sold, everything already reimbursed stays with the owner. There is one exception: **termination for Cause**, which makes amounts already reimbursed repayable. See "What Happens on Termination."

Conditions. The improvement must be approved by Basecamp in writing before purchase. Vesting requires the property to remain under an active Basecamp management agreement in good standing for each completed month. Improvements purchased before written approval, or that do not meet Basecamp's specifications, are not eligible for reimbursement.

ELIGIBILITY

Who qualifies.

The \$5,000 Basecamp Launch Package is designed for higher-performing vacation rentals that are a strong fit for the Basecamp management program. To qualify, a property must:

- ✓ Be accepted as a new Basecamp Getaways management property
- ✓ Be projected by Basecamp at enrollment to generate at least \$85,000 in annual Gross Booking Revenue
- ✓ Enter into the required Basecamp management agreement
- ✓ Participate in Basecamp's 25% management program
- ✓ Pay the applicable \$120 technology fee
- ✓ Allow Basecamp to control pricing, minimum stays, promotions and revenue-management strategy
- ✓ Meet Basecamp's minimum rental-availability requirements
- ✓ Complete agreed-upon recommended property improvements
- ✓ Maintain the property, furnishings and amenities to Basecamp's guest-ready standards
- ✓ Maintain all legally required permits, licenses and insurance
- ✓ Remain current and in good standing with Basecamp
- ✓ Use Basecamp as the property's exclusive short-term-rental manager

Qualification and package availability are determined by Basecamp based on the property's projected revenue, condition, location, amenities, owner-use requirements and overall rental potential.

THE THREE COMMITMENTS BEHIND THE OFFER

AVAILABILITY

Peak Season dates stay open for guests, and owner use stays within the agreed allowance.

CONDITION

Required improvements are completed on schedule and the home stays guest-ready.

CONTROL

Basecamp sets pricing, minimum stays and promotions, and is the exclusive STR manager.

These three commitments are what make the Launch Package economics work. Each is a condition of eligibility — not a suggestion — and each is documented in the management agreement.

THE QUALIFICATION STANDARD

\$85,000 projected — not \$85,000 already earned.

The Launch Package is available only for properties that Basecamp reasonably projects, **at the time of enrollment**, can generate at least **\$85,000 in annual Gross Booking Revenue** — assuming the owner completes the required property improvements and provides the required rental availability.

This is deliberately a *projection* standard, not a trailing-performance standard. A brand-new or newly renovated property with no rental history can qualify on day one.

What the projection is based on

- Location
- Property size
- Bedroom / bathroom count
- Guest capacity
- Amenities
- Property condition
- Waterfront / access characteristics
- Comparable rental performance
- Owner availability
- Planned improvements
- Market demand

A projection is not a guarantee. A projection exceeding \$85,000 does not itself guarantee future revenue. Package 02 is the only Launch Package containing a performance guarantee, and it remains subject to its own terms.

Definition of Gross Booking Revenue

For purposes of the \$85,000 qualification threshold and the Performance Guarantee, **Gross Booking Revenue** means qualifying nightly rental revenue generated from completed guest reservations through Airbnb, Vrbo, Basecamp direct-booking channels and other Basecamp-approved distribution channels.

COUNTS TOWARD GBR

- Nightly rental revenue from completed guest reservations
- Bookings through Airbnb and Vrbo
- Basecamp direct bookings
- Other Basecamp-approved distribution channels

EXCLUDED FROM GBR

- Cleaning fees
- Taxes
- Refundable deposits
- Damage-protection fees
- Pet fees
- Technology fees
- Owner reimbursements
- Cancelled / refunded reservations
- Other pass-through charges

GROSS BOOKING REVENUE IS NOT THE OWNER'S TAKE-HOME

GBR is a *gross* measure used only for qualification and the Performance Guarantee. What the owner receives — the **Owner Distribution** — is revenue due to the owner less Basecamp's management fee, the technology fee and reimbursable operating expenses (cleaning, supplies, maintenance, vendor and repair charges) for the period, per the management agreement and itemized on the monthly owner statement. The same applies anywhere in this guide that describes the owner receiving or keeping revenue.

RENTAL AVAILABILITY REQUIREMENT

Performance requires availability.

The \$5,000 Launch Package is designed for owners who want to maximize the financial performance of their vacation rental. For that reason, participating properties must maintain sufficient rental availability throughout the year.

Peak Season

Basecamp establishes a defined **Peak Season** for each market. During designated Peak Season dates, the property must remain available for guest reservations except for owner-use dates specifically approved in advance and in writing by Basecamp.

PEAK SEASON IS PUBLISHED AS A DATED EXHIBIT

Peak Season is not left to interpretation. Basecamp publishes the exact dates annually for each market as a numbered exhibit to the management agreement — for example, **Exhibit B — 2027 Peak Revenue Dates (Blue Ridge)** — and the owner acknowledges those dates by signature. A replacement exhibit is issued for each subsequent calendar year.

Peak-demand periods may include:

- Memorial Day weekend
- Peak summer weeks
- July 4th week
- Labor Day weekend
- Major local events
- High-demand tournament / event periods
- Thanksgiving
- Christmas / New Year's periods
- Other market-specific high-demand dates identified by Basecamp

No owner-blocked dates are permitted during designated peak-demand periods unless specifically approved in writing by Basecamp.

Non-Peak Owner Use

Owner use outside designated Peak Season is permitted, subject to the maximum number of owner-blocked nights established in the management agreement. The exact allowance is set for each property.

30 nights

EXAMPLE MAXIMUM OWNER USE
PER ROLLING 12-MONTH PERIOD

Capped

SUB-LIMIT ON WEEKEND AND
OTHER HIGH-DEMAND NIGHTS

Exhibit B

PEAK SEASON DATES,
ACKNOWLEDGED ANNUALLY BY
THE OWNER

Illustrative only. Each property's owner-use allowance and weekend sub-limit are established in that property's management agreement.

REQUIRED PROPERTY IMPROVEMENTS

Our revenue projection assumes the property is positioned to compete.

Qualification for the Launch Package may require the owner to complete specific property improvements recommended by Basecamp. Before enrollment, Basecamp may conduct a property and market review and identify the improvements considered necessary to achieve the projected rental performance.

Recommendations may include

- Furniture or décor improvements
- Bedding and linen upgrades
- Outdoor furniture
- Hot tub
- Fire pit
- Game-room amenities
- Fire pit or outdoor fireplace
- Deck and porch improvements
- Exterior lighting
- Landscaping improvements
- Smart-home technology
- TVs and entertainment
- Kitchen equipment
- Guest-experience improvements
- Professional staging
- Other market-specific amenities

HOW IT IS DOCUMENTED

Required improvements are identified and agreed upon **before** final Launch Package approval, with a written scope and completion deadline. Nothing is left open-ended, and nothing is added after the fact without the owner's agreement.

IF REQUIRED IMPROVEMENTS ARE NOT COMPLETED

Failure to complete required improvements by the agreed deadline may delay, suspend or eliminate eligibility for Launch Package benefits — including the Performance Guarantee, which is calculated on the assumption that the property competes in the condition agreed at enrollment.

A revenue projection is a promise about a specific property in a specific condition. Change the condition and you change the projection.

TERMINATION FOR CAUSE

What "for Cause" means.

Launch Package benefits are earned by owners who hold up their end of the agreement. Basecamp may terminate the management agreement **for Cause** in the circumstances below. "Cause" is defined here so that it is never a judgment call after the fact.

IMMEDIATE CAUSE — NO CURE PERIOD

- Fraud, or material misrepresentation about the property, its ownership, its permits or its condition
- Submitting false, altered, duplicate or non-qualifying receipts under the Property Upgrade Package
- Listing the property on any channel not managed by Basecamp, accepting a booking or guest payment outside Basecamp, or soliciting a Basecamp guest to book directly
- Cancelling, refusing, or denying access to a confirmed guest reservation without Basecamp's approval
- Blocking a designated Peak Season date without Basecamp's prior written approval
- Abusive, threatening, harassing or discriminatory conduct toward guests, Basecamp personnel or vendors
- Use of the property for any unlawful purpose
- A condition rendering the property unsafe or uninhabitable that the owner fails to remedy within the time Basecamp reasonably requires

CAUSE AFTER WRITTEN NOTICE AND 10 DAYS TO CURE

- Failure to pay any amount owed to Basecamp
- Independently altering rates, minimum stays, promotions or calendar availability
- Exceeding the agreed annual owner-use allowance
- Failing to complete Required Property Improvements by the agreed deadline
- Failing to maintain the property in guest-ready condition, or to keep required amenities in working order
- Lapse of any required permit, license, short-term-rental registration, HOA approval or insurance
- Any other material breach of the management agreement

The cure period runs from the date Basecamp delivers written notice describing the breach.

REPEATED BREACH

Three or more written notices of breach in any rolling 12-month period constitute Cause — whether or not each individual breach was cured within its cure period.

RESIGNING AHEAD OF A NOTICE DOES NOT AVOID THIS

If the owner terminates after receiving a written breach notice, or while a Cause condition exists and is uncured, the termination is treated as a termination for Cause for all Launch Package purposes.

TERMINATION OUTCOMES

What happens when the relationship ends.

How the Launch Package unwinds depends entirely on *why* it ends. In every scenario except termination for Cause, the owner keeps what is already earned and simply stops earning more.

HOW IT ENDS	BENEFITS ALREADY RECEIVED	FUTURE / UNVESTED BENEFITS	OWED BACK TO BASECAMP
Owner terminates — no Cause condition	Kept in full	Forfeited	\$0
Basecamp terminates without Cause	Kept; vested-but-unpaid reimbursement is paid out	Forfeited	\$0
Property sold — agreement not assigned	Kept in full	Forfeited	\$0
Property sold — agreement assigned to the buyer with Basecamp's approval	Kept in full	Continue vesting under the new owner	\$0
Basecamp terminates for Cause	Become immediately repayable	Forfeited	Full amount
Owner terminates while a Cause condition is uncured	Become immediately repayable	Forfeited	Full amount

WHAT "REPAYABLE" MEANS, BY PACKAGE

01 — Lawn Care + Cabin Keeper	Documented cost of services provided	Repayable
02 — Performance Guarantee	Fee credits already applied are reversed and re-invoiced	Repayable
03 — Property Makeover	Documented cost of photography and consultation	Repayable
04 — Property Upgrade	Full amount of reimbursements already paid	Repayable

HOW REPAYMENT WORKS

- Due within **30 days** of Basecamp's written demand
- Basecamp may **offset** it against rental proceeds, reserves and other owner funds
- Unpaid balances accrue interest at 1.5% per month or the legal maximum
- Owner covers reasonable collection costs and attorney's fees

THE \$5,000 BASECAMP LAUNCH PACKAGE

THE REPAYMENT CEILING

Repayment never exceeds the promotional value actually provided — a maximum of **\$5,000** per property. Basecamp recovers no lost fees, lost revenue or other damages here.

The owner keeps the hot tub, the sauna, the fire pit. Only Basecamp's promotional contribution toward it becomes repayable.

MANAGEMENT PROGRAM REQUIREMENTS

The management program behind the offer.

Participation in the \$5,000 Basecamp Launch Package requires enrollment in Basecamp's qualifying premium management program.

GENERAL LAUNCH PACKAGE TERMS

Terms that apply to every package

- Each qualifying property may select **one** Launch Package. Packages cannot be combined unless Basecamp agrees otherwise in writing.
- Promotional benefits have **no cash value**, except approved reimbursements specifically earned under the Property Upgrade Package.
- Benefits are **non-transferable** and cannot be applied to another property.
- Benefits cannot be combined with other promotional offers unless approved by Basecamp.
- Benefits are available only while the management agreement remains **active and in good standing**.
- Benefits are subject to the specific limits of the selected package.
- Unused benefits do not convert to cash, owner credits or a different package.
- Basecamp reserves the right to approve properties and selected packages based on projected revenue, property characteristics, management economics, owner-use requirements and operational feasibility.

WHERE EACH TERM LIVES

This guide describes the program. The binding terms — the selected package, the agreed Annual Gross Booking Revenue Target, the owner-use allowance, the required improvements and completion deadlines, and the applicable Peak Revenue Dates — are set out in the Basecamp management agreement and its exhibits, which control in the event of any inconsistency with this guide.

IMPORTANT PROMOTIONAL DISCLOSURE

The fine print, in plain sight.

The Basecamp Launch Package provides up to \$5,000 in promotional value and is available only to qualifying new management properties accepted by Basecamp Getaways. Properties must generally be projected by Basecamp, at the time of enrollment, to generate at least \$85,000 in annual qualifying Gross Booking Revenue — assuming completion of required property improvements and provision of required rental availability — and must satisfy property-condition, improvement, rental-availability, owner-use and management-program requirements.

Participation requires Basecamp's qualifying 25% management program and the applicable \$120 technology fee. Owner-blocked dates are restricted, including restrictions during designated Peak Season dates as published for each market and acknowledged by the owner as an exhibit to the management agreement. Certain Basecamp-recommended property improvements may be required as a condition of eligibility. Under Package 01, Basecamp covers the cost of a Cabin Keeper inspection plan for the first qualifying 12-month period, combined with lawn and grounds maintenance up to a total of \$5,000. Cabin Keeper is an independent third-party provider, not affiliated with or an agent of Basecamp Getaways, and sets its own pricing and scope; amounts above the combined maximum and separately billed add-on work remain the owner's cost.

Benefits vary by selected package, have no cash value except earned reimbursements expressly provided under the Property Upgrade Package, and are subject to package-specific limits and terms. Under the Property Upgrade Package, reimbursement is limited to the lesser of the owner's documented qualifying expenditure or the amount vested, and vesting requires the management agreement to remain active and in good standing for each completed month; unvested amounts are forfeited on termination.

If Basecamp terminates for Cause as defined in the management agreement, or the owner terminates while a Cause condition remains uncured, all promotional value already provided — services rendered, management-fee credits applied and reimbursements paid — becomes immediately due and repayable to Basecamp, capped at \$5,000 per property, and Basecamp may offset it against rental proceeds, reserves and other owner funds it holds. In all other termination scenarios the owner retains benefits already received and forfeits only future unvested benefits.

Revenue projections are estimates and are not guarantees except as expressly provided under the separate Performance Guarantee terms. The guarantee is measured over a defined Performance Period of 12 consecutive full calendar months following a minimum 90-day Ramp Period, which must include every designated Peak Season date, each with at least 90 days of prior open, Basecamp-controlled availability; revenue is credited based on stays completed within that period. Credits are applied against future management fees, capped at \$5,000 in the aggregate, cannot result in a cash payment, and may be voided — or the period extended at Basecamp's option — by the owner's failure to satisfy the guarantee conditions.

Qualification and package availability are determined by Basecamp in its discretion based on the property's projected revenue, condition, location, amenities, owner-use requirements and overall rental potential. Basecamp may modify or discontinue the Launch Package program at any time as to properties not yet enrolled. Additional terms and conditions apply. This guide is a summary for informational purposes; the Basecamp management agreement and its exhibits contain the binding terms and control in the event of any inconsistency.

PACKAGE-SPECIFIC LIMITS AT A GLANCE

PACKAGE	MAXIMUM	KEY LIMITATION
01 — Lawn Care + Cabin Keeper	\$5,000	Lawn and Cabin Keeper coverage share one \$5,000 pool; Cabin Keeper is an independent provider; first 12-month period only.
02 — Performance Guarantee	\$5,000	Fee credits only; never cash; voidable for failure to meet conditions.
03 — Property Makeover	\$5,000	Services only; furnishings and amenities remain the owner's cost.
04 — Property Upgrade	\$5,000	Vests at \$138.89 monthly over 36 months; capped at documented spend; repayable on termination for Cause.
